XCEO, Inc. Announces the Redesign of Its BoardPortal PLUS® Website

XCEO, the premier governance and leadership partner for boards of directors and executives, has restructured and enhanced its boardportalplus.com website in order to align its web content to mirror its comprehensive and easy to use board portal solution, BoardPortal PLUS®.

Updating the website to be simple and effective and to have a more modern look and feel, the XCEO team felt that it was critical that XCEO customers and visitors to the site would have a better overall experience when looking for support material, articles and resources as well as considering different BoardPortal PLUS® and BoardPortal PLUS® Connect products and services.

Michelle Ronco, Chief Marketing Officer at XCEO said, "We are so excited to have a fresh website that better speaks to our forward-thinking clients and prospects. Updating the navigation as well as the information in order to provide a straightforward view of our unique offerings was a critical part of the update. Whether utilizing our short videos for updates and training, perusing our exclusive governance and leadership articles or revisiting the points for partnering with XCEO, we are confident that users and visitors alike will find exactly what they are looking for when visiting the website."

The main areas of focus include the BoardPortal PLUS® and BoardPortal PLUS® Connect products, its integrated video, voice and sharing asset, XPress as well as its Enlightened Corporate Governance® board evaluations and function-rich Board Chamber.

Highlighting critical security, user interface and support features, the updated website provides specific information regarding the XCEO platforms and the solutions available for the corporate, public sector and service provider markets. Areas specifically designed to highlight portal features as well as Frequently Asked Questions, INK and Toner articles and videos make the site especially relevant for today's organizations.
